WORK EXPERIENCE

Front End Architect
ViitorCloud Technologies

09/2019 - 01/2020   *Ahmedabad, India*

Achievements/Tasks

- This role involved making complex decisions to ensure the quality of the code with keeping deadlines in mind. As being solely responsible for the frontend architecture, designed products ensuring scalability and performance at its best. Given training sessions to ensure the technical growth of the team.
- Taken the decisions on stacks in project development and advised best possible solution among all.
- Hired and grown the team of 3 to 8. Used Git projects for managing product tasks and assigning them between the team.
- Tasks included doing code reviews and accepting/rejecting PRs with proper inputs.
- Given training sessions to ensure the technical growth of the team.

Senior Software Engineer - Team Lead
Sooryen Technologies

07/2014 - 07/2019   *Ahmedabad, India / New York, USA*

Achievements/Tasks

- Participated in making Responsive Web Designs using Media Queries and Bootstrap. Extensively used SASS and LESS while styling with CSS3.
- Designed dynamic and multi-browser compatible pages using HTML, CSS, JQuery and JavaScript
- Worked as a Full-stack developer who manages code for both Frontend and Backend using Laravel 5 + Angular / ReactJS
- Experience in working with advanced JavaScript such as ECMAScript 6 (ES6).
- Developed components as an independent module for reusability across the application
- Handled data from multiple streams to maintain the sequence and their dependencies
- Implemented React UI and maintained the state with Redux architecture implementation.
- Expert in creating bundling complex applications using Webpack or packaging it using gulp/grunt.
- Designed Theme in Magento 2 Enterprise Edition
- Worked with JIRA, which is managing project requirements and tasks. Used GitHub as version control. Utilized Agile Methodologies (Scrum) to manage full life-cycle development of the project.
